

Ali Raza Mohammady

IT Systems, Web Development & Automation

ali-it.com | info@ali-it.com | +1 (973) 352-7096

IT professional and NJIT graduate with hands-on experience supporting staff and day-to-day technology needs at First Care Medical Transportation. My work has grown from office operations and computer support into developing the company website and centralized systems for employee, route, and records management.

EXPERIENCE

First Care Medical Transportation | 2017 - Present

Office Associate | IT support and internal systems development

- Serve as the resident IT resource, helping employees resolve computer problems and supporting day-to-day technology needs.
- Handle backup and recovery tasks and maintain operational information and records.
- Develop the company website and centralized systems for employee information, routes, and records.
- Bring firsthand knowledge of office workflows and route documentation to the design of internal business tools.

Walmart | 2018 - 2019

Cashier

- Handled cash and credit transactions and assisted customers.

SELECTED DEVELOPMENT WORK

Central Employee Management System | In development

A centralized application for employee information and related administrative records.

Route & Records Management | In development

Internal tools for organizing transportation routes and operational records.

First Care Website | In development

Development of the company's website alongside its internal business systems.

EDUCATION
